Dear Mr. Childs:

Re: Determination of Completeness for Publication, Revision for Permitting Potential Subsidence areas, Genwal Coal Company, Crandall Canyon Mine, ACT/015/032-91-1, Carbon County, Utah

Division staff have conducted an initial review of your application for permit revision submitted December 20, 1991. Submitted materials are adequate to determine the application package administratively complete for publication purposes.

A technical review is currently being conducted. Any technical deficiencies will need to be addressed prior to revision approval. At this time you should publish a Notice of Significant Permit Revision as required by R614-300-121.100. A notarized proof of publication should be sent to the Division as soon as it is available. The Division will notify all other interested agencies and allow for their comment prior to making a final decision to approve or disapprove the revision application.

If you have any questions, please call Randy Harden or me.

Sincerely,

Daron R. Haddock  
Permit Supervisor
